

If 1 item takes 1 second to process, 100 items
also take 1 second to process

$O(1)$

Code Example

In this example,
`findFifthElementOfArray(tinyArray)` and
`findFifthElementOfArray(largeArray)` will
take the same amount of time.

```
1  tinyArray = Array(10).fill(0)
2  largeArray = Array(100000000).fill(0)
3
4  findFifthElementOfArray(tinyArray)
5  findFifthElementOfArray(largeArray)
6
7  function findFifthElementOfArray(arr) {
8    |   return arr[4]
9  }
10
```
